Aluminum & Fiberglass Structure
Seamless Exterior Walls
Large Arctic Tern Windows

Full Width Garage
Underneath Dinette

THE PANTHERA GENUS, WHICH INCLUDES THE TIGER, IS THE LARGEST OF THE CAT FAMILY DATING BACK 6.5 MILLION YEARS AGO.

Like the genus, the PANTHERA 280 is made for strength and long-lasting durability. Built on a F-450 or 550, the unibody design includes aluminum tubing and plate connections in strategic locations to the chassis creating a powerful permanent mount system. Fiberglass fairings are aerodynamic and provide a very quiet ride. PANTHERAs also include one-piece, seamless heavy duty fiberglass exterior walls that include insulation, in addition to spray foam insulation inside.

Key Standard features include: overhead king bed, 6'8" headroom, spray foam insulation, 50-g freshwater, Rixen's Hydronic Heating System, AC with soft start, 800AH lithium batteries (up to 1,200AH), 600-watts solar, coach rock guard system, Arctic Tern windows, and Tiger's signature large pass-through between the camper and truck.

VEHICLE DIMENSIONS

Exterior Width 7ft	Exterior Height 10ft 4in	Overhead Bed Height 33in
Exterior Length 28ft	Interior Height 6ft 8in	Dry Weight 14,000 lbs

* final dimensions dependent on chassis
